Fujitsu ScanSnap S1500 Instant PDF Sheet-Fed Scanner

I couldn't function without my Fujitsu ScanSnap. It does exactly what the name claims and more. It will scan your paper documents and instantly turn them into PDF files. Not only that, it will turn them into searchable PDF files. In a profession which requires the handling of so many paper documents on a day to day basis, the auto-feed scanner with instant pdf conversion is indispensable.

If you can't begin to imagine the possibilities that this tool allows then let me help you.

1. Eliminate your file storage room(s).
2. Eliminate the mess on your desk.
3. Find documents instantly.
4. Notify your clients immediately of case events.
5. Slash your mailing expenses.
6. Make discovery searchable. Make any paper document searchable.
7. Get rid of your copier?
8. Cut your paper costs.
9. Significantly reduce typing.
10. Clean out your basement.

Comes with full version of Adobe Acrobat Professional 9. **Available for the Mac as well.**
